

# Two-part foaming agent

## **SecureFoam™**

SecureFoam is a two-part foaming agent developed to immobilize patients during radiation therapy treatments. SecureFoam offers the ability to quickly create an inexpensive, customized immobilization.

### **Features:**

- Maintains shape longer than the other two-part foams
- Reimbursable as a complex treatment device
- Simple, cost effective method of customized immobilization
- Additional patient comfort liner available upon request

### **Available in 3 sizes to meet your patient positioning needs:**

- BKRT-5036 - Small (10/CS)
- BKRT-5037 - Medium (10/CS)
- BKRT-5038 - Large (4/CS)
